PROFIX

Perfection in a moment

Semitransparent dyeing marker for quick and invisible touch-up on any indoor wooden surface.
Easy, fast, effective.

Color sample service

BORMA WACHS®
Wood Professional Cosmetics

PROFIX

Plus:

- Based on natural resins in alcohol, with dyes of great brilliance and depth.
- Quick drying
- Available in more than 90 colors
- Easy to use
- Perfect chisel tip to reach even the corners
- Recommended for pre-touching deep scratches and scratches on natural wood before applying Stuccorapido or Hartwachs
- Suitable for correcting small scratches or abrasions in finishes of furniture, floors and any indoor surface (wood, composite or synthetic materials, enamelled metal, etc.) that requires a semi-transparent touch-up.
- For both domestic and professional use

Touch-up

- Remove dust and grease from the concerned surface
- Shake vigorously
- Apply carefully directly on the wood, in the grain direction, or using a cotton cloth to distribute the product on abraded paints
- Check that, when the job is finished, the casing is tightly closed.
- Clean the tip with a piece of paper or cloth
- Replacement tips available
- A slight overcoating with HolzSpray is recommended to protect the retouching.
