ISO 9001:2015 CERTIFICATION. SGS N°IT07/0886

Interiors

Exteriors

Clean the surface to be treated from grease, silicone, old paints or traces of dirt. If necessary, sand or brush to remove loose pieces. If necessary, degrease with soap and water or alcohol

Ready to use product. Dilute, if necessary, with 10-20% of water.

Application by brush or short pile roller.

It is possible to apply by spray after appropriate dilution (10-20% preferably demineralized water)

Leave to dry for 6 hours.

Sand lightly with 180-220 grit sandpaper.

Apply a second coat.

Complete drying in 24 hours.
